Subject: Proprietary Certificate

This is to certify that VivaScope 2500 Gen5, Laser Confocal Microscope (Part No. 21220) manufactured by Caliber Imaging & Diagnostic, Inc. located at 50 Methodist Hill Drive, Suite 1000, Rochester, New York, USA who are proven and reputable manufacturer of Confocal Laser Scanning Micr. Marketed globally by Vivascope GmbH, Munich, Germany including VivaScan Software, is a proprietary equipment based on proprietary components. It is the only system in our knowledge that has the following unique features:

- Laser Scanning Confocal Microscope (LSCM) cleared for medical purposes
- Two lasers with wavelengths of 488 nm (blue) and 638 nm (red)
- A fluorescent dye that is applied to the tissue prior to the VivaScope imaging process is excited by the blue laser, thus highlighting cell structures (e.g. nuclei)
- The red laser is used to generate a reflectance signal, showing structural information of the sample
- Both reflectance and fluorescence signals are acquired simultaneously and correlated in real-time
- Seamless zoom up to 550x magnification
- Optical resolution of <1.25 um at centre of field of view (horizontal), < 5.0 um at center of field of view (vertical)

Its accessories and consumables Cytomatrix (item number 21328) are equipment specific and proprietary in nature.

To the best of our knowledge, no other company or manufacturer has similar technology or system in the market at present.
